

MEDIA RELEASE

March 5, 2018

Innovation Island, a regional accelerator association working with technology startups and entrepreneurs, is announcing that Executive Director Paris Gaudet is leaving to pursue new opportunities. Innovation Island will soon begin a search to identify a replacement.

Graham Truax and Chelsea Pedersen will continue as Interim Executive Director/Executive-in-Residence and Program Coordinator respectively to support a smooth transition to her replacement.

“We really want to thank Paris for all of the work that she has done with the organization since 2007,” said Phil Stiller, Board Chair of the Innovation Island Technology Association (IITA). “Her leadership has significantly increased Innovation Island’s profile in the communities that we serve and forged many successful partnerships over the years.”
